

JUNE 17-20, 2018

CLINICAL TROPICAL MEDICINE

“This introduction to illness, diagnosis treatment, complication prevention was a huge help. It increased my knowledge so much as I have had only a small amount of tropical disease teaching before.”

– TROPICAL MEDICINE COURSE PARTICIPANT

The J. D. MacLean Centre for Tropical Disease at McGill University has provided training to generations of doctors and nurses providing clinical care to travelers, immigrants, and indigenous populations around the world for over 30 years. This course focuses on linking laboratory diagnostics and research to the clinical treatment of patients.

COURSE DIRECTORS

Michael Libman, MD

Director, J.D. MacLean Centre for Tropical Medicine
Department of Microbiology & Division of Infectious Diseases,
McGill University Health Centre

Cédric Yansouni, MD, FRCPC, DTM&H

Associate Director, J.D. MacLean Centre for
Tropical Diseases at McGill University
Department of Microbiology & Division of Infectious Diseases,
McGill University Health Centre

CONTENT

Tropical Medicine Clinical Review – 3 days

These presentations cover the latest health issues and treatments for travelers and indigenous populations. Presentations include the latest research and diagnostics in tropical and parasitic diseases and preventative medicine for travelers.

Laboratory Course: Malaria and Parasitic Zoonoses – 1 day

Laboratory workshop overview of blood borne and intestinal parasites and hands-on teaching of microscopy for medical laboratory technologists, microbiologists, clinicians, nurses, and other industry personnel.

You may register for one, or both of these course components; however the laboratory section is limited to 40 participants.

COURSE FACULTY

McGill Centre for Tropical Diseases Faculty

Kendall Billick, MD, DTM&H

Christina Greenaway, MD, FRCPC

Theresa W. Gyorkos, PhD

Selim Rashed, MD, MSc, CPSQ

Makeda Semret, MD CM, FRCPC

Brian J. Ward, MDCM

Guest Course Faculty

Sapha Barkati, MD, MSc, DTM&H

Andrea Boggild, MD – University Health Network, Toronto

Christina Coyle, MD – Albert Einstein College of Medicine

Jay S. Keystone, MD – University of Toronto

Momar Ndao, DVM, MSc, PhD – McGill University

Laboratory Course Faculty

Director: **Evelyne Kokoskin, M.Sc., ART, FCSMLS (D)**

Team Lead-Technical and Educational Development

Public Health Ontario, Public Health Laboratories – Ottawa

Lyne Cedilotte, Technical Coordinator of Parasitology,

MUHC Department of Microbiology

Karine Thivierge, PhD, Director of Parasitology,

Laboratoire de santé publique du Québec

Momar Ndao, DVM, MSc, PhD

Director, National Reference Centre for Parasitology

TARGET AUDIENCE

Ideal for medical health care professionals interested in tropical diseases and travel health – Doctors, residents, nurses, pharmacists and medical laboratory technologists.

ENROLMENT

The Tropical Medicine Clinical Review Course has a maximum of 150 participants. The laboratory day is limited to 40 people.
