

McGill

McGill Summer Institute in
Infectious Diseases and
Global Health

2018

For the fourth year, academics, students, seasoned physicians, industry professionals, policymakers, advocates, and former patients gathered in Montreal at the McGill Summer Institute to learn, discuss, network and build collaborations. Almost 700 people participated in the 8 interactive courses providing new knowledge, lively discussions and hands-on learning experiences. The Summer Institute's unique platform continues to attract top-notch faculty and learners from around the world.

We thank all our funders, sponsors and partners for making the Summer Institute a big success!
